Neon Text

Step 1:

- Open the **Gimp** program.
- Click File New
- In the Create a New Image box, make the width 300 and the height 150.
- Click OK.

Create a New Image	
Template:	•
Image Size	
<u>W</u> idth:	300
H <u>e</u> ight:	150 pixels
	300 × 150 pixels 72 ppi, RGB color
<u>H</u> elp	<u>R</u> eset <u>O</u> K <u>C</u> ancel

 Choose the paint can tool, make sure the foreground color is black and click on the image.

Step 2:

- Click in the box and type **Gimp**.
- You may have to move the text to fit in the center of the box.
- Close the GIMP text editor box.

Step 3:

- Click Filters Blur Gaussian Blur.
- Change the Blur radius to 10 and click **OK**.

- Click Filters Alpha to Logo Neon.
- Change Effect size to **20** choose **glow color** and click **OK**.

If you are not satisfied with the result, Click **Edit** – **Undo Neon** and try again with different settings. You may want to try different Filters like Alien Glow or Chrome.

Step 4:

Create a new Text graphic with your name(s) and save it to your folder in the Home Drive W:.

Make sure you click Select File Type and choose JPEG image.
